

Name: Lu Wing Hon, Marcus (12)

Class: 5A

My Dream Job

I want to be a scientist when I grow up because I find experiments interesting and I love learning new things. I will work in a laboratory and be surrounded by advanced equipment. I will conduct a lot of experiments to investigate scientific questions. I need to wear a lab coat and safety gear. I can think creatively and I am good at logical thinking and solving math problems. I will learn more about conducting experiments. I should study science diligently to achieve my dream job. I will work hard to realize this dream.
