

My Dream Job

5B 20 Lam Kiu Yi, Joy

I want to be a vet when I grow up because I love animals and enjoy playing with them. I am also good at taking good care of the animals.

I will work in a veterinary clinic. I need to wear a veterinary uniform. I will treat sick and injured animals.

I am weak in diagnosing animal conditions. Therefore, I should train my observation skills to get my dream job. Also, I am afraid of snakes, so I need to be braver.
