

My Dream Job

5E 17 Shanzay

I want to be a nail artist when I grow up because I love doing nails. I am good at doing nails, hair and facial. I will work in a nail salon. I need to wear beautifully. I can wear any type of clothes I like, but I cannot dress down. It is because appearing too casual might make me less trustworthy. Therefore, I have to dress properly to make me look more professional. I will help my clients shape, polish and decorate their nails.

In order to become a good nail artist, I need to pay more attention to nail videos and improve my drawing skills. I also need to be creative and patient. I really want to be a nail artist because my relatives are also nail artists. I hope my dream can come true.
